

Education Sessions

RSVP to Danna Widmar at danna@harborinc.org or call 231-526-5060

Map & Data Use Training Session

December 6, 2004, 7:30 pm
Little Traverse Township Hall

by HARBOR, Inc. and Land Information Access Association

Learn how to use the mapping and data available to you at www.harborinc.org for understanding local planning proposals.
No Course Fee

Map & Data Use Training Session

January 24, 2005 from 7:00 pm-8:30 pm
Friendship Township Hall

by HARBOR, Inc.

Learn how to use the mapping and data available to you at www.harborinc.org for understanding local planning proposals.
No Course Fee

Zoning Clinic

February 16, 2005 from 4:00 pm-5:00 pm
Harbor Springs Middle School Lg Group Mtg Room

By American Planning Association Audio/Web Conference

Here is your opportunity to ask the panel of experts about all those vexing zoning issues.

Course Fee: \$10

(continued from front page)

open space is relatively limited so it is important to prioritize and “put your best foot forward” on grant applications.

WHY RECREATION AND OPEN SPACE? Plain and simple, we are blessed to live in a state that has one of the world’s most unique natural environments. Our resources are significant. Secondly, there is rarely a person who doesn’t feel that recreation and open space are important. We all agree on that one broad, but significant topic. An objective of any thoughtful, joint planning process is to expand our area of agreement to greater levels of detail that bring real tangible results.

Some notable facts about the natural resources in this amazing state:

- Michigan’s agricultural product diversity is second only to California.
- On average, Michigan develops its land eight times faster than its population growth.
- 17% of Michigan’s economy DEPENDS on our natural resources (agriculture, forestry, mining, natural resources tourism and recreation).
- Michigan is blessed with the Great Lakes which contain an astounding 95% of the world’s freshwater supply. If that isn’t a magnificent privilege and responsibility, I don’t know what is.

Development Finance & Pro Formas

May 25, 2005 from 4:00 pm - 5:30 pm
Harbor Springs Middle School Lg Group Mtg Room

by American Planning Association Audio/Web Conference

This program will unravel the mystery and help you understand development and the financial calculations that go into proposals and projects.
Course Fee: \$10

Planning, Environmental & Land Use Law

June 29, 2005 at 4:00 pm - 5:30 pm
Harbor Springs Middle School Lg Group Mtg Room

by American Planning Association Audio/Web Conference

The legal landscape for planning is ever changing. In this annual review, planning attorneys review important U.S. Supreme Court, federal circuit, and state court case law that is relevant to a national audience.

How Does The Left Menu Work?

LOG IN

If you want to participate in some of the interactive features of the site, you can sign up to be a self-registered user by clicking on Log In. After logging in, you are able to add a message to the Community Forum, add an event to the Community Calendar, and add a Favorites menu on MYCC.

COMMUNITY CALENDAR

The Calendar displays community events posted by members of the community.

COMMUNITY FORUMS

The Forum gives web site users an opportunity to comment on posted topics. Current topics include non-motorized trails recreation and open space.

FAVORITES ON MYCC

This link allows you to easily create your own customized list of www.harborinc.org pages and maps that interest you.

As you browse through our site, simply click on "Add to MyCC" in the My CC menu at left or at the top of a map screen. A popup window will appear in which you can type some notes about the page or map, and then

you can add the link to your MyCC list.

Once you have added links to your list, click on "Use MyCC" in the left menu. From there you can add additional notes to links, delete unnecessary links and email your list to yourself or others.

ABOUT THIS SITE

About This Site offers help to navigate and use www.harborinc.org effectively

CONTRIBUTE TO HARBOR INC.

Support us in maintaining the website or any of our special initiatives identified in our strategic plan.

Who Maintains Information on the Site?

People with information to share need a place to put it. Harbor, Inc. offers an organized means of sharing information and getting feedback on that information. Some specific examples:

Local Governments use www.harborinc.org to expand citizen access to services through posted contact information for officials; for distributing agendas, minutes and background information for meetings; for offering online forms and procedures to speed up permitting; and for display of parcel, tax and zoning data and maps.

Civic Organizations as diverse as the Historical Society, the Community Pool and Band Boosters groups use www.harborinc.org to notify interested people about their events, services and information they have collected.

HARBOR, Inc. Executive Director, Danna Widmar, posts pertinent information about HARBOR, Inc. activities and area planning efforts. This includes maps, data, forum topics, e-news and current events.

Friendship Township

How Does The Top Menu Work?

The site is organized with categories of information on the top menu. Select a category by clicking on it and a drop down menu will appear. Detail information such as Census Data, meeting agendas and Emmet County Tax Data can be found!

How Do The Digital Maps Work?

Click on the desired link on the drop down menu and you will be directed to the map of your choice (ie. parcel ownership/assessed value). When the map is displayed on the screen, you can use the data as shown, or you can build your own map of specific layers. The maps are organized with a toolbar on the left, a space for the legend or detailed toolbar instructions on the right, the main map area in the center and a map locator on the bottom right.

Left Toolbar Options:

Scale - Click to display the map scale.

Base Map Theme - Changes base map theme (such as displaying a color map of Assessed Value by Dollar Range from the Parcel Ownership Map). The themes are preset.

Map Overlays - Adds/removes layers of data to/from the base map. This is how you build your own map!

Measure Distances - Measures the distance between 2 or more points (up to 20). Choose distance by clicking spots on the map. Also displays the X/Y coordinate for points on the map.

Zoom Options - Provides three ways to change view. Follow tool instructions carefully.

Search Options - Available if search option is activated for the current Base Map or Overlays. Allows you to search for specified objects on the map such as a parcel owner name.

Previous View - Previously selected map scale or view.

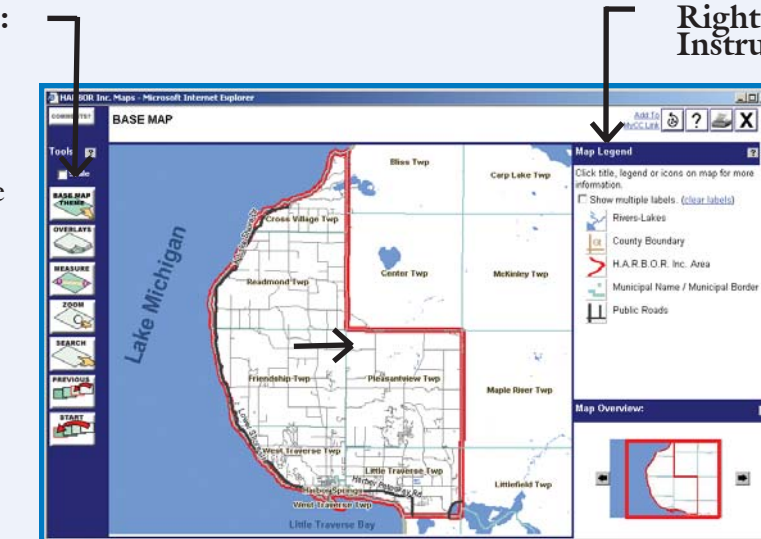

Starting View - Starting view which is the unzoomed view.

Right Legend or Tool Instruction Workspace:

Right Legend
The map legend describes the colors, lines, labels, icons, and shapes that appear on the map.

When you click the legend icons and labels, a brief explanation of the data and its source appears in the text box.

To see labels for certain features on the map, click the map while the legend is displayed.

Map Area:

Typically, a base map theme provides data about a specific topic, such as population density, using different colors to represent the data. By adding overlays on top of a map, you can compare different types of information. For example, if you want to know what zoning district you live in, select the zoning base map theme, then overlay parcel lines and locate your property.

In addition to colors, base map themes and overlays may use lines, shapes, and icons to represent a variety of information. All of this information is defined in the legend.

If you want to see data available for a particular area (zone, property, etc.) click on the dots on the map.

Check the "Show multiple labels" box to allow more than one label to appear on the map as you click the map.

Click "clear labels" to remove all labels currently displayed on the map.

Tool Instructions:
Detailed information and instructions appear in this space when using the tools in the left tool bar. (ie. if you select map overlays you can change the information or the map to suit your need.

Close out the tool instructions to see the map legend again.
